Jacob’s Ladder Youth Foundation is a grassroots 501(c)(3) organization that faithfully serves our wonderful community through educational programming and training. Our mission is to reduce the number of juveniles entering and returning to the juvenile justice system. We specialize in strengthening families and developing youth through our hallmark programs, including Diversion, Reentry, and our Junior Workforce Academy.

As our area and nation continue to confront an ongoing pandemic, increases in economic gaps between the poor and wealthy, and social injustice, the work of Jacob’s Ladder has elevated across the first six months of 2021. With our work dedicated to those in most need, Jacob’s Ladder has answered the local call through various efforts designed to help Prince George’s County and surrounding area residents. What follows is a summary of our 2021 work thus far. Let’s start with some numbers highlighting our impact:

**OVER 5,000 INFANT FEEDING SUPPLIES DONATED TO DESERVING FAMILIES**

**JACOB’S LADDER HAS OVER 8 UNIQUE PROGRAM OFFERINGS TARGETING THE DEVELOPMENT OF AREA YOUTH, INCLUDING MENTORING AND DIVERSION.**

We are extremely thankful for the ongoing support and encouragement. We always seek additional ways to support our community.
RE-ENTRY PROGRAMMING

Jacob’s Ladder expanded our re-entry programming beyond Prince Georges County, MD, by developing a strong relationship with the DC Youth Detention Center. In 2021, Jacob’s Ladder launched our Reentry Program and Junior Workforce Academy within the District to serve a new set of youth in need of support. Our re-entry services support the successful rehabilitation of youth and their transition back into the community through courses that focus on empowerment, leadership, and positive change. Through our programs, youth begin to understand the importance of education, develop work skills to advance in life, seek to obtain gainful employment, aspire to curb destructive behaviors, and commit to finding a safe environment to live in upon their release. Our efforts are crucial to the area’s goals of reducing youth recidivism and improving public safety.

According to a 2020 report by the Brookings Institute, 1 out of 9 Metro DC/Prince George’s County (MD) youth are considering disconnected and susceptible to adverse outcomes, including incarceration.

A 2020 report from WalletHub ranked D.C. and Prince George’s County youth as the second most at-risk in the entire country.

Prince George’s County Department of Corrections reported 2,327 youth incarcerations in 2020, a per-capita rate that would rank the county in the top 8% nationally regarding youth crime.
Studies have shown that students who participate in career training and are educated about personal finances are more likely to achieve higher levels of educational attainment, employment, income, and entrepreneurship. Through our extensive menu of Youth Enrichment Programs, Jacob’s Ladder provides area youth with education and mentorship to support them in realizing their potential. Our notable programs include:

JACOB’S LADDER JUNIOR WORKFORCE ACADEMY
TUTORING AND MENTORSHIP
SUMMER CAMPS
FINANCIAL LITERACY COURSES
TRUANCY AND SUSPENSION INTERVENTION
SCHOOL TO PRISON PIPELINE REFORM

WE ARE DETERMINED TO DEVELOP THE NEXT GENERATION OF CAREER-READY, FINANCIALLY RESPONSIBLE CITIZENS.

WE CAPTURE THEM EARLY AND PREPARE THEM FOR THEIR FUTURES!
THE VALUE OF ENRICHMENT PROGRAMS

Jacob’s Ladder’s Enrichment Programs allow our area youth to gain advanced knowledge within their academic discipline, which in turn raises their confidence. Our programs are proven to increase critical-thinking skills and problem-solving skills, which can reduce anxiety during exams. In addition, our programs have shown the ability to reinvigorate a student’s passion for learning. We aspire to offer students the opportunity to thrive both in and outside of the classroom and receive enrichment that allows them to navigate all facets of life successfully.

Research shows that high-quality enrichment programs improve students’ educational outcomes, school attendance, and social and emotional learning.

Consistent participation in enrichment programs has shown lower dropout rates and has helped close achievement gaps for low-income students.

Regular participation in an enrichment program may also reduce risky behaviors and help them gain college and career-needed skills for older youth.
